BEEF/VEAL Low temperature vacuum cooking

BEEF CHEEKS PREMIUM

BEEF CHEEKS

- Ref 1717

Beef cheeks vacuum cooked (sous-vide) at low temperature for more than 16 hours. Premium beef cheeks are whole and complete, while the second refers to cheeks with a veterinary-controlled cut.

Cooking Suggestions: Previously thaw.

A. WHOLE PIECE:

A) Open the bag and pour the contents directly into a saucepan with its own cooking juice, our beef demi-glace or a sauce of your choice. Regenerate for 10 minutes until boiling.

B) Without opening the bag, regenerate for 5 minutes in the Microwave (800 W) or for 10 minutes or in a water bath (bain-marie). Open the bag and serve with our demi-glace or with a sauce of your choice.

B. SLICED: Open the bag, slice the cheeks into 1-2 cm slices and regenerate (200°C) in a grill, griddle or pan with a few drops of oil with our demi-glace or a sauce of your choice.
